

International Special Lecture
(ONLINE)

2022 **11.7** (Mon)
18:00~19:30
via ZOOM (**English**)

Technion-Israel Institute of Technology
Professor Emeritus

Shlomo Maital

The Key to Winning Innovation:
“I Did It My Way!”
Lessons from Technion-Israel

Prof. Maital was the academic director of TIM-Technion Institute of Management and a visiting professor for many years at the MIT Sloan School of Management. He is still passionate about entrepreneurship education as well as business administration research. He will give us a special lecture about new aspirations and the mindset of entrepreneurship approached from Japan's unique cultural background, rather than aiming for a startup nation modelled on Silicon Valley or Israel, and give it in a straightforward explanation for biomedical and engineering students who are new to entrepreneurship education.

Recording, Taping, Photographing Prohibited.

[Register here]

RSVP 31st Oct.
